PROJECTS

1. **CAMPSITE**
   URL (**https://github.com/salil-saurav/CampSite.git**)

   - ✓ Developed a responsive web application using HTML5, CSS3, EJS and JavaScript.

   - ✓ Integrated APIs using Express JS and Node JS to handle backend functionalities.

   - ✓ Stored user data in MongoDB and performed CRUD operations using Mongoose**.**

   - ✓ Worked with various node packages using Node JS and NPM to handle backend and frontend functionalities**.**

2. **PERFECT DRY**
   URL (https://github.com/salil-saurav/PefectDry-main.git)

   - ✓ Designed and developed a dynamic web application using TypeScript, React, and Material-UI (MUI) components.

   - ✓ Leveraged TypeScript to enhance code quality and maintainability by providing strong typing and improved error detection throughout the development process.

   - ✓ Integrated Material-UI (MUI) components and design principles to create a modern and visually appealing UI that adheres to best practices in user interface design.
